

"LION" RAID WALLET

onesuponagame.com

Print on 60# or 110# cardstock

Cut out the strip below and score on the four "FOLD" lines.

Fold so the gray section on each side is touching the neighboring blue section on each side.

On the back, tape or glue the flaps down to the center section.

Secure the edges with tape as well to hold down.

The center blue section will overlap some of each side card slot leaving enough room to tuck in and read the correct information for each card determining the raid size and makeup.
